

A win-win for seniors and their caregivers.

With our comprehensive Adult Day Services, caregivers enjoy the peace of mind that their loved ones are safe when they cannot be there. Seniors enjoy engaging activities, nutritious meals and socialization, while also receiving health and medication monitoring. Each senior is assessed to develop a customized care plan that addresses his or her specific physical, emotional, nutritional and social needs. This specialized care is especially ideal for seniors suffering from chronic conditions such as stroke, diabetes, heart disease, Alzheimer's, Parkinson's disease and depression.

Best of all, this invaluable service helps seniors continue to live at home instead of being placed in an assisted living facility or nursing home. And their caregivers can remain employed or have much-needed respite from the demands of constant care.

Neighborly Care Network – a helping hand for seniors and caregivers.

Neighborly Care Network is a nonprofit agency that provides daytime social, health, pharmaceutical, nutrition, and transportation services to enable older adults to live more

independently in their community. Our staff is committed to providing our clients and their families with the highest quality services in a safe and caring environment – as it has for four decades – and many generations. Neighborly Care Network is an equal opportunity provider.
