choicesm Program

The *choicesm* care plan (*choosing homecare over institutionalized care environment*) offers home- and community-based services, both acute and long-term, as an alternative to nursing home care. Qualified individuals receive a wide range of services, such as home-delivered meals, home care, respite care, adult day care, consumable supplies, and intensive care management, so they can live independently at home. Members can keep their own primary and specialty physicians and receive services at the hospital of their choice. Through the *choicesm* program, some nursing home patients are able to return home – where they want to be.

Neighborly Care Network works directly with the Florida Department of Elder Affairs (DOEA) and the Agency for Health Care Administration (AHCA) to provide its members with long-term care.

Eligibility

Interested in becoming a member of the *choicesm* care plan? Or thinking of enrolling your loved one? Here are the qualifications for members:

- Age 65 or older
- Have Medicare A&B and eligible for Medicaid
- Live in one of these counties: Brevard, Broward, Citrus, Dade, Hernando, Hillsborough, Indian River, Manatee, Martin, Orange, Osceola, Palm Beach, Pasco, Pinellas, Polk, Sarasota, Seminole, or St. Lucie
- Meet financial requirements determined by the Department of Children and Families
- Meet clinical criteria for being at risk of nursing home care
